As far as I know, Maria should be free first week of Jan. Perhaps you should try for either Thursday or Friday. Those dates should be okay for Maria.

OK, Thanks. I will let you know the exact date that Maria and I will take inventory, as soon as I can confirm with her.

Yvette, as you stated, until we know what's to be stored, the cost of storing, etc., we should leave everything at Stiegelbauers. We'll make longterm decision after your inventory report.

Scott Cadel from On-time, Inc. can store and repair the equipment. I need to know what direction you or Gigi would like for me to go.

Should we leave everything at Stiegelbauers and pay their fee? Or should we change warehouses for a slight savings?

Scott, Maria and I will inventory the B&H materials, once again the first week of January. Scott needs to see exactly what the materials consist of to determine an actual figure. The original storage fee that he quoted was $350.00. However, I think the price might increase based total inventory. I will not know the answer to this question until we do an physical inventory.

What's status of Blues & Rhythm storage? You have invoice(s) and were going to call new company re monthly cost for all our materials.
